Beaverton and Clare, Michigan ~ March 2025

Time to shake off those winter blues and get sprung for spring!

With spring coming soon, don't forget to:

Add coverages back onto your stored items:

- Motorcycles
- Antique Autos
- Campers
- Boats
- Recreational vehicles

Water Backup of Sewers or Drains:

**Umbrella Policies:
Why is it important?**

Get the security and peace of mind you deserve, with an additional layer of protection for your assets if you are faced with a lawsuit or expenses due to an injury or accident.

Imagine all of your hard

Backed-up sewers or drains can wreak havoc on a home, causing thousands of dollars in damage to floors, walls, furniture and electrical systems.

Common causes of water backup:

- Aging sewer systems
- Water and sewer systems exposed to more rain water than they can handle
- Blockage due to tree roots
- Water from outside the plumbing system that enters through sewers or drains.
- Water that enters into and overflows from within a sump pump, sump pump well or any other system designed to remove subsurface water that is drained from the foundation area

earned savings taken away for something, as a dog bite claim, that could cost an astronomical amount in a court case. An Umbrella policy would help ease the out of pocket expenses and there is even a potential for savings with a Multi Policy Discount.

Our agency can offer Personal and Commercial Umbrella policies, contact us for more information and affordable price options.
